

# Private Pilot License

## About us:

U-Fly Training Academy was established in 2007 as a flight Training Academy that could provide aspiring pilots their chance to fulfil their aviation aspirations through the school's low cost but comprehensive flight training program.

## What is a Private Pilot License?

The Private Pilots license is the first level to attain before you will be able to pilot an aircraft with passengers but without being paid for it. It is for the most part for the private individual to fly for enjoyment and for the aspiring Commercial Pilot, the chance to build hours. The training program teaches the basic and most important principles and actions to power an aircraft into the sky and return it safely to the ground.
